Academic Project

Shopping Website Development

Aug 2018– Sep 2018

Federation University, Sydney

- Objective:** To create a shopping website for a company as a university project that include interactive user interface so people could perform features such as adding items to their shopping cart
- Tools:** **Bracket, Visual Studio Code, Notepad ++, Pencil, Sketch**
- Duties:** As part of a group project of 4, my responsibilities included designing the User Interface of the website and some of the coding, which included designing the feature of linking the user to the database of the website when they signed up to the website
- Result:** We were able to design a fully operative website with a good interface and was very interactive. Achieved High Distinction in the first part of the project and achieved Distinction in the second part. I learned to use software such as Sketch and learned some codes for CSS3 and JavaScript

Employment History

Retail Assistant

Nov 2018 - Present

7-Eleven Haymarket, Sydney, Australia

- Demonstrating strong communication skills by interacting with all customers on a daily basis
- Effectively stocking 5-6 items in their correct orders on the shelves on a daily basis
- Continuously displaying multitasking skills by interacting with customers, filling stock on shelves and cleaning at the same time, during each shift
- Displaying an extraordinary level of patience by handling 2-3 ill-tempered customers per shift
